I'm a web developer with a degree in Computer Information Systems (Application Development) and a minor in Web Development. I'm passionate about crafting clean, minimalist websites that emphasize usability and intuitive design. I'm now focused on building real-world projects to sharpen my skills, collaborate with others, and deliver thoughtful, user-centered experiences that genuinely meet clients' needs.

EXPERIENCE

Personal Portfolio Site - mannyrse.com

Independent Project
May 2025 - Present

- Currently designing and developing a personal portfolio website to showcase my web development work with a clean, minimalist design.
- Focusing on creating a responsive, user-friendly design that ensures optimal user experience across various devices.
- Integrating modern design principles and emphasized a user-centered approach, ensuring ease of navigation and a professional aesthetic.
- Continuously refining the design to highlight my skills, projects, and technologies used.

Saxeville Union Cemetery Website/Interactive Map

Saxeville Union Cemetery · Capstone Project
Jan 2024 - May 2024 · 5 months

- One of two project members on the Saxeville Union Cemetery website, focusing on delivering an interactive burial plot map.
- Developed a comprehensive project plan, detailing objectives, sprint deliverables, project purpose, goals, timeline, risk management strategies, and resource allocation.
- Utilized WordPress for website development to ensure a user-friendly content management system.
- Led the design and implementation of the interactive map with QGIS to improve user experience by simplifying plot location.

2AM Cameraman Website

2AM Cameraman · Freelance
Jan 2024 · 1 month

- Developed the 2AM Cameraman website, showcasing my client's artistic portfolio using HTML, CSS, and JavaScript.
- Designed the site in the style of a desktop computer, incorporating interactive elements.
- Collaborated directly with the client to understand their vision and ensure the site aligned with their branding.
